## Student's Feedback for Teaching-Learning (Session 2018-19)

Student's feedback has become a widely used method to evaluate and improve teaching effectiveness. Feedback from the students allows the colleges to know what the college is doing that facilitates learning and what kind of adjustments are needed to be made. Even minor changes in the class room can make a huge difference. In order to get feedback from the students about 519 Questionnaires/form based on different aspects like course content, teaching learning process and evaluation process were distributed among the students. Out of these fifty forms were randomly selected and analyzed and it was found that majority of the students strongly agree to the fact that the teacher communicates clearly and possesses deep knowledge of the subject, guides the students for higher academic pursuits and career advancements, relates the course material with real world situations, is helpful and friendly towards students and has professional competence and is a role model for them. As every coin has two sides in the same it has been found that few students remained neutral or disagreed to the above mentioned facts.

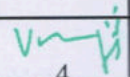

- 64% of the students strongly agree to the fact that teacher covers the entire syllabus whereas none disagrees.
- 50% of the students strongly agree to the fact that teacher discusses topics in detail whereas none disagrees.
- 54% of the students strongly agree to the fact that the teacher possesses deep knowledge of the subject taught whereas none disagrees.
