Teacher's Feedback(Session 2019-20)

One of the most beneficial aspects of feedback is the information the teacher acquires. Through effective feedback, teachers can determine the learning preference of individual students, the strength and weaknesses in a given curriculum and information in taking important decision in the college academics and extra mural activities. In this regard a total of 104 question forms were distributed among teachers based on different aspects like curriculum training, their freedom to adopt new techniques, education tools, strategies in teaching methodologies, taking sufficient steps to provide help assistance to slow learners/students with special needs and whether the course/syllabus of this course has increased their knowledge and perspective in the subject. Out of it fifty forms were randomly selected and analyzed to get the unbiased response. It was found that majority of the teachers strongly agree to the above mentioned facts however there was denial too.

- 64% of the teachers strongly agree to the fact that curriculum and syllabus are need based whereas none disagrees.
- 66% of the teachers strongly agree to the fact that the programme outcome and course outcomes are well defined whereas none of the teachers disagree.
- 50% of the teachers agree to the fact that sufficient number of relevant reading material/books/reference books and digital resources are available in the library whereas none disagrees.
- 56% of the teachers strongly agree to the fact that the course has good balance between theory and application whereas none disagrees.
- 52% of the teachers agree to the fact that course/syllabus of this course increased his/her knowledge and perspective in the subject whereas none disagrees.
- 48% of the teachers strongly agree to the fact that they have the freedom to propose, suggest and incorporate new topics in the syllabus through proper forum whereas 2% of the teachers disagree.
- 64% of the teachers strongly agree to the fact that they have the freedom to adopt new techniques/educational tools/strategies in teaching methodology whereas none disagrees.
- 74% of the teachers strongly agree to the fact that they take sufficient steps to provide help and assistance to slow learners/students with special needs whereas none disagrees.
- 54% of the teachers strongly agree to the fact that they have contributed the curriculum and/or syllabus development whereas 4% of the teachers disagree.
- 66% of the teachers strongly agree to the fact that they have freedom to take the students to field visits, experimental learning etc. whereas none disagrees.
- 66% of the teachers strongly agree to the fact that they use latest ICT tools like projectors, YouTube channels, PPT etc. for providing course material whereas none disagrees.
- 82% of the teachers strongly agree to the fact that they relate the course material to the real world situation whereas none of the teachers disagree.
