International Yoga Day - June 21, 2021

Celebrated on June 21, International Yoga Day celebrates the physical and spiritual prowess that yoga has brought to the world stage. While it is an important source of exercise and healthy activity millions join in and practice on a daily basis. For many, these routines are a way to connect the body, mind and soul in a way that has existed for centuries.

Article Competition (17.07.2020)

An article writing contest was organised on importance of yoga, cadets participated in it and wrote these beautiful articles.

Importance of yoga

By Khushboo

3HAR/19/SWA/257252 3 HAR GIRL'S BATTALION NCC HISAR Davanand college, Hisar

Yoga is a set of spiritual, physical and mental practices that originated in ancient India. The word itself means 'yog' or union of the physical with the spiritual within oneself. It also <u>symbolises</u> the union of individual consciousness with that of the Universal Consciousness, indicating a perfect harmony between the mind and body, human & nature.

Yoga combines physical exercises, poses (asanas), meditation, breathing exercises and techniques.

Some researchers believe that yoga originated during the Indus Valley Civilization period, others say it originated from the pre-Vedic age in eastern India. From then to today, time has changed but not the importance of yoga. Yoga is equally important in today's life as well. Because it is not only a kind of physical exercise that keeps our body fit, it also keeps our mind free of stress and heathy. In today's life people encounter more mental health issues so it became very important to practice yoga daily

Yoga not only prevent us from disease but it also help to cure many disease. If medicines have failed you, yoga might not

My experience in NCC By – Cadet Khushboo 3HAR/19/SWA/257252 3 Haryana girl's battalion NCC , Hisar

I remember the day when selection process of NCC cadets ,2019-2020 batch was going on in the sports ground of our college. I was so nervous and just wanted to enroll. I was not too physically strong but that day I was ready to do any task. Few days after our trial results came and I got selected. I was so pleased.

As my training proceeded, I grew more and more and I really became a cadet from an ordinary student. A lot of change occurred in my personality and a great part of these changes was contributed to NCC.

It developed many qualities in me, I became more confident, more social, more punctual, more responsible, more sincere and there are many more

qualities that developed in me during this journey. I am very happy to be a part of this youth organization and I can proudly say that I am an NCC Cadet.
